

El Boletín de Vigilancia Tecnológica en Sanidad Animal es el resultado del trabajo conjunto de la Oficina Española de Patentes y Marcas (OEPM) y la Fundación Vet+i -Plataforma Tecnológica Española de Sanidad Animal, quienes han aunado esfuerzos para ofrecer a los adheridos de Vet+i y a cualquier interesado en sanidad animal, una información puntual, esquemática y de rápida lectura sobre las últimas patentes publicadas en este campo.

Este boletín número cuarenta y nueve recoge una selección de las solicitudes de patentes publicadas a nivel internacional durante el primer trimestre de 2023 en el ámbito de la sanidad animal, las cuales aparecen distribuidas según la especie animal de aplicación de las mismas.

Asimismo, se incorpora un capítulo que recoge solicitudes de patentes sobre tecnologías de aplicación general y contiene un apartado de enlaces a [noticias](#) de

interés en materia de propiedad industrial, así como sobre las actividades de la Plataforma.

El boletín, que tiene una periodicidad trimestral, se enmarca dentro del convenio de colaboración suscrito por ambas organizaciones para facilitar, impulsar y estimular el conocimiento y la utilización de los derechos de Propiedad Industrial por parte de las organizaciones y empresas adheridas a la Fundación Vet+i.

Se puede acceder al listado de solicitudes de patentes para cada grupo pulsando sobre las imágenes que aparecen a continuación.

Nº de publicación	Solicitante	País de Origen	Contenido técnico
BR 102021009874 A2 20221206	Inst Federal De Educacao Ciencia E Tecnologia De Minas Gerais	Brazil	Phytotherapy solution useful for e.g. preventing animals against pathogens e.g. Escherichia coli related to mastitis
BR 102020025659 A2 20220628	Uniao Brasileira De Educacao E Assistencia Mantenedora Da Pucrs	Brazil	New quinolinic compound used for preparing pharmaceutical composition for treating bacterial diseases e.g. tuberculosis
ZA 202103919 B 20211027	Inst Special Animal & Plant Sciences Caas	China	Nano-PCR detection kit used to detect infectious bovine rhinotracheitis (IBR) comprises e.g. Mighty Amp polymerase, 2X Buffer Mix solution, gold nanoparticle sol, pair of specific primers and IBR virus positive control plasmid
ZA 202110446 B 20220223	Univ Inner Mongolia Agri Univ Jilin Agricultural	China	Primer-probe combination for detecting bovine Escherichia coli comprise primers and a probe for detecting a fimbriae antigen F5 gene and primers and a probe for detecting a fimbriae antigen F41 gene
NZ 715441 A 20220429	Elanco Australasia Pty Ltd	Australia	Use of neonicotinoid in prevention of myiasis caused by e.g. Dermatobia hominis and Cordylobia anthropophaga in non-human animal and human without using insect growth regulator
WO 2023056245 A1 20230406	The Us Secretary Of Agriculture	USA	New Babesia antigen comprising at least portion of Babesia gametocyte HAPLESS2/GCS1 protein, and optionally affinity tag used in vector, cell, and for interfering with Babesia transmission by competent ticks
	Washington State Univ	USA	
	James Cook Univ	Australia	

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2023023631 A1 20230223	Pardes Biosciences Inc	USA	New protease inhibitory compounds are cysteine proteases inhibitors useful for ameliorating or treating viral infection from virus comprising e.g. RNA virus, DNA virus, and coronavirus in patient.
CN 115252617 A 20221101	Jiangsu Hengrui Medicine Co	China	Solid composition useful in preparing medicines for treating infections caused by viruses e.g. Japanese encephalitis virus, tick-borne encephalitis virus, Kunjin virus, Murray Valley encephalitis virus, St. Louis encephalitis virus, Omsk hemorrhagic fever virus, bovine viral diarrhea virus
	Suzhou Shengdiya Biological Medicine Co Ltd		
WO 2023023527 A1 20230223	Gilead Sciences Inc	USA	New phospholipid compounds useful for treating or preventing a viral infection in a subject, where the viral infection is a Pneumoviridae virus infection e.g. respiratory syncytial virus infection and human metapneumovirus infection, Picornaviridae virus infection e.g. Flaviviridae virus infection e.g. dengue virus infection, yellow fever virus infection, West Nile virus infection, tick borne encephalitis, Kunjin Japanese encephalitis, bovine viral diarrhea
WO 2023049243 A1 20230330	Biomedit Llc	USA	Lysostaphin variant used for composition for treating infection caused by gram-positive bacterium in animal such as human, ruminant animal, poultry, swine, canine, feline, mustelidae family, and leporidae family.
WO 2023049162 A1 20230330	Biomedit Llc	USA	The engineered polypeptide variant is useful for: treating a parasitic infection; microbial infection, which is caused by Mannheimia haemolytica, Pasteurella multocida, Escherichia coli, Salmonella, Campylobacter jejuni, or Piscirickettsia salmonis.

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2023021092 A1 20230223	Farahani Ensieh Lappe Michael Hans Willi	Denmark	Use of activator of hypoxia-inducible factor 1-alpha for treating/preventing neurotropic viral infection caused by neurotropic virus
WO 2023007409 A1 20230202	Univ Cape Town	South Africa	Composition used in treatment of east coast fever comprises first nucleic acid encoding bovine leukemia virus Gag protein, and a second nucleic acid encoding a recombinant <i>Theileria parva</i> fusion polypeptide
WO 2023038852 A1 20230316	Zoetis Services Llc	USA	New azalide used in composition for medicament for treating or preventing inflammatory response in animal or mitigating progression of respiratory disease or disorder in animal (all claimed). The respiratory disease or disorder is bovine respiratory disease or swine respiratory disease.
KR 20230018690 A 20230207	Avixgen Inc	South Korea	The composition is useful or preventing and treating viral diseases including acquired immunodeficiency syndrome, avian leukemia, mouse mammary tumor, bovine leukemia virus, human T lymphoma, bovine leukemia, murine leukemia and abelson murine leukemia
JP 2022189088 A 20221222	Pias Arise Kk	Japan	Agent useful for inhibiting formation of biofilm for oral pathogenic bacteria, and preventing dental caries and periodontal diseases in human and animals other than human such as livestock or pets, comprises polysaccharide fiber
CN 115715763 A 20230228	Zhengzhou Xinze Biotechnology Co Ltd	China	Bromhexine hydrochloride solid microspheres and preparation method used for preventing and treating respiratory disease of livestock and poultry

Nº de publicación	Solicitante	País de Origen	Contenido técnico
CN 115724957 A 20230303	Beijing Nabai Biotechnology Co Ltd	China	New heavy chain and light chain variable region of anti-bovine viral diarrhea virus NS3 protein monoclonal antibody used in preparing genetically engineered antibodies or vaccines targeting NS3 protein
WO 2023048111 A1 20230330	Nat Agriculture & Food Res Org	Japan	Vaccine used for preventing infectious diseases, preferably mastitis in non-human mammal, preferably cattle, sheep, goats, and camels, comprises acapsular strain of Streptococcus subspecies as antigen
	School Corporation Azabu Veterinary Medicine Educational Inst		
WO 2023015277 A1 20230209	Zoetis Services Llc	USA	Vaccine useful for preventing Clostridium chauvoei infection for in bovine or ovine subject, comprises Clostridium chauvoei component and additional cctA protein
CN 115417928 A 20221202	Jiangsu Tianmeijian Natural Bioengineering Co Ltd	China	The method enables reducing the loss of SIgA, improving the utilization rate of bovine colostrum, and helping to reduce the production cost of purified SIgA
CN 115521942 A 20221227	Tianjin Acad Of Agricultural Sciences	China	Epitope gene vaccine AKK useful in vaccine research and antibody preparation for providing immunoprotective effect against bovine viral diarrhea virus
CN 115364123 A 20221122	Jiangsu Sanyi Bioengineering Co Ltd	China	Brevibacillus laterosporus and application thereof in control of ruminant parasites
	Dalian Sanyi Animal Drug Co Ltd		
CN 115364207 A 20221122	Univ Huazhong Agricultural	China	Vaccine composition for preventing and treating bovine viral diarrhea, comprises recombinant bovine viral diarrhea virus E2 protein and adjuvant, where vaccine is prepared by utilizing recombinant plasmid vector to express exogenously in cells, and mixing and emulsifying recombinant protein

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2023023655 A1 20230223	Massachusetts Eye & Ear Infirmary	USA	New adeno-associated virus (AAV)-11 vector comprising AAV11 capsid protein and nucleic acid encoding transgene operably linked to promoter, in which transgene encodes immunogenic polypeptide, used e.g. to elicit immune response
	Schepens Eye Res Inst		
CN 115518081 A 20221227	Hebei Inatural Biotechnology Co Ltd	China	Compound probiotic powder and compound probiotic preparation for treating calf diarrhea and preparation method of compound probiotic powder and compound probiotic preparation
CN 115364200 A 20221122	Univ Henan Animal Husbandry & Economy	China	Preparing medicine for treating bovine cholecystitis by collecting bovine bile, adding bovine blood and Enterococcus freeze-dried powder, inoculating big-head golden fly egg, culturing golden fly larva in culture system and sterilizing antibacterial protein dry product
WO 2023034646 A2 20230309	Aanika Biosciences Inc	USA	New Peptide comprising wild type sequence having specified amino acid sequence useful for inhibiting microbial growth, treating microbial infection, or preventing or reducing the incidence of microbial infection
	Ismail Alexandre		
	Pisareva Vera		
	Sabio German		
	Jorgensen Ellen		
	Bhuyan Vishaal		
CN 115418355 A 20221202	Qingdao Animal Husbandry Work Station	China	New <i>Staphylococcus lentus</i> bacteriophage for use in preparation of drugs for preventing and treating <i>Staphylococcal</i> infections, preparation of feed, additives for preventing and treating diseases caused by <i>Staphylococcus lentus</i> , cleaning agent or disinfectant for <i>Staphylococcal</i> lentus
	Qingdao Inst Of Animal Husbandry And Veterinary Medicine		

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2022257981 A1 20221215	Smilebiotek Guangzhou Ltd	China	Use of substituted polycyclic compounds in medicine, cosmetic, acaricide and external composition for inhibiting mites and preventing diseases caused by mite infection, preferably eye disease, skin disease and allergic disease
CN 115634263 A 20230124	Univ Northeast Agricultural	China	Composition for preventing and treating animal diarrhea, alkaline mineral compound preparation as well as preparation method and application of alkaline mineral compound preparation
WO 2022270978 A1 20221229	Univ Nat Chonnam Ind Fo und	South Korea	Pharmaceutical composition useful for providing antiviral effect for preventing or treating RNA virus infection, comprises lipolytic enzyme inhibitor
	Korea Res Inst Bioscience & Biotechnology		
CN 115381935 A 20221125	Univ Shihezi	China	Preparing Bovine Viral Diarrhea Virus inactivated vaccine involves mixing the BVDV virus strain virus liquid and hydrogen peroxide solution, inactivating, obtaining Bovine Viral Diarrhea Virus virus strain inactivated virus liquid, and mixing virus strain inactivated liquid with Freund adjuvant
KR 20230001534 A 20230104	Univ Nat Chonnam Ind Fo und	South Korea	RNA Pharmaceutical composition containing lipolytic enzyme inhibitors for preventing or treating RNA virus infection
	Korea Res Inst Bioscience & Biotechnology		
CN 115820482 A 20230321	Univ Yunnan Agric	China	The <i>Bacillus amyloliquefaciens</i> strain YN-BA2 has high inhibitory effect on <i>Salmonella pullorum</i> and <i>Salmonella enteritidis</i> in vitro for prevention and treatment of <i>Salmonella pullorum</i> disease in livestock and poultry industry.
KR 20230034093 A 20230309	Republic Of Korea Animal And Plant Quarantine Agency	South Korea	New recombinant vector comprising gene encoding heavy chain C-terminal protein of botulinum type derived from botulinum type strain, useful for preventing and diagnosing livestock botulism C/D type intoxication

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2023022866 A1 20230223	Phoenix Biotechnology Inc	USA	The method and antiviral composition are useful for treating viral infection including bovine coronavirus (BCV), porcine coronavirus (PC V), bovine viral diarrhea virus (BVDV), bovine respiratory syncytial virus (BRSV), and porcine reproductive and respiratory syndrome virus (PRRSV) in an animal
CN 115474664 A 20221216	Shandong Jianyuan Biotechnology Co Ltd	China	Method useful for preparing bio-agent, which is useful for preserving TMR and/or preventing mastitis in dairy cow
WO 2022268720 A1 20221229	Signify Holding Bv	Netherlands	System used to distribute attenuated airborne pathogen in an indoor space for humans or animals, comprises a control system configured to control spectral power distribution of first radiation of treatment mode, and indoor climate sensor
CN 115717127 A 20230228	Inst Of Animal Science And Veterinary Medicine Shandong Academy Of Agricultural Sciences	China	New strain of bovine viral diarrhea virus useful for inactivated vaccine for bovine viral diarrhea virus disease
CN 115486813 A 20221220	Wang Jia	China	Intelligent animal husbandry checking device for checking health condition of livestock e.g. cattle, and detecting parasitic pest
WO 2022260568 A1 20221215	Perstorp Ab	Sweden	Mixed glycerol ester composition used for mitigating coccidiosis, contains ester molecules comprising one glycerol moiety, two valeric acid moieties and one lauric acid moiety, trivalerin, trilaurin, and lauric acid
WO 2023014970 A2 20230209	Univ New York	USA	New NorA peptide inhibitor useful e.g. for treating <i>Staphylococcus aureus</i> infection and potentiating therapeutic efficacy of antibiotic or biocide in subject having <i>Staphylococcus aureus</i> infection

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2022252848 A1 20221208	Wang Huiru	China	Vaccine to treat saccharide related disease e.g. infectious disease, inflammation, inflammatory respiratory disease, diarrhea, arthritis, autoimmune disease, allergy, and cancer, comprises N-acetylneurameric acid methyl ester.
CN 115572689 A 20230106	Univ Inner Mongolia Agri	China	Pediococcus pentosaceus M6 and application thereof
	Inner Mongolia Autonomous Region Acad Agricultural & Animal Husbandry Sciences		
WO 2023282702 A1 20230112	Kanaph Therapeutics Inc	South Korea	Quinazoline derivative used in pharmaceutical composition or medicament for preventing or treating disease such as cancer, cancer metastasis, cardiovascular disease, immune disorder, fibrosis, and eye disorder.
	Yungjin Pharmaceutical Co Ltd		
US 2022409550 A1 20221229	Korea Inst Sci & Tech Kyungpook Nat Univ Ind Academic Coop Found	South Korea	Pharmaceutical composition for preventing or treating cancer, comprises active ingredient, and nanocages formed by self-assembly of a fusion protein including a programmed cell death protein 1 and a self-assembling protein.
WO 2023014651 A1 20230209	Purina Animal Nutrition Llc	USA	Method for feeding livestock animals, where the livestock animals comprise swine, cattle, or poultry; inhibiting Streptococcus in animals.
CN 115569152 A 20230106	Feed Res Inst Caas	USA	Preparation method and application of rumen source washing microbial inoculum
WO 2023028424 A1 20230302	Sloan Biologics Llc	USA	The probiotic composition for reducing pathogenesis, preferably for preventing pathogen such as bacteria growth in poultry GI tracts.

Nº de publicación	Solicitante	País de Origen	Contenido técnico
WO 2023015274 A1 20230209	Zoetis Services Llc	USA	Antiinflammatoryl for treating mastitis in a subject, where the mastitis is associated with or induced by a bacteria including Escherichia coli, Staphylococcus aureusor Streptococcus uberisand the subject is a bovine or dairy cow.
WO 2022256401 A1 20221208	Xenotherapeutics Inc	USA	Xenogeneic neural or nerve tissue for xenotransplantation of a xenogeneic neural or nerve product, into a nonhuman primate or human xenotransplant recipient for treatment of injuries and aliments.
	Alexis Bio Inc		
BR 102021009716 A2 20221122	Univ Sao Paulo	Brazil	Curative dispersion composition useful for preventing or treating uterine infection in ruminant, by homogenizing liquid dispersion and powdered clay base, stirring mixture mechanically, and packing dispersion in packages.
