## Buscar invenciones

Base de datos de la OEPM

INVENES: invenciones en español

Ejemplo de búsqueda nacional de invenciones

Bases de datos de otras oficinas de propiedad industrial

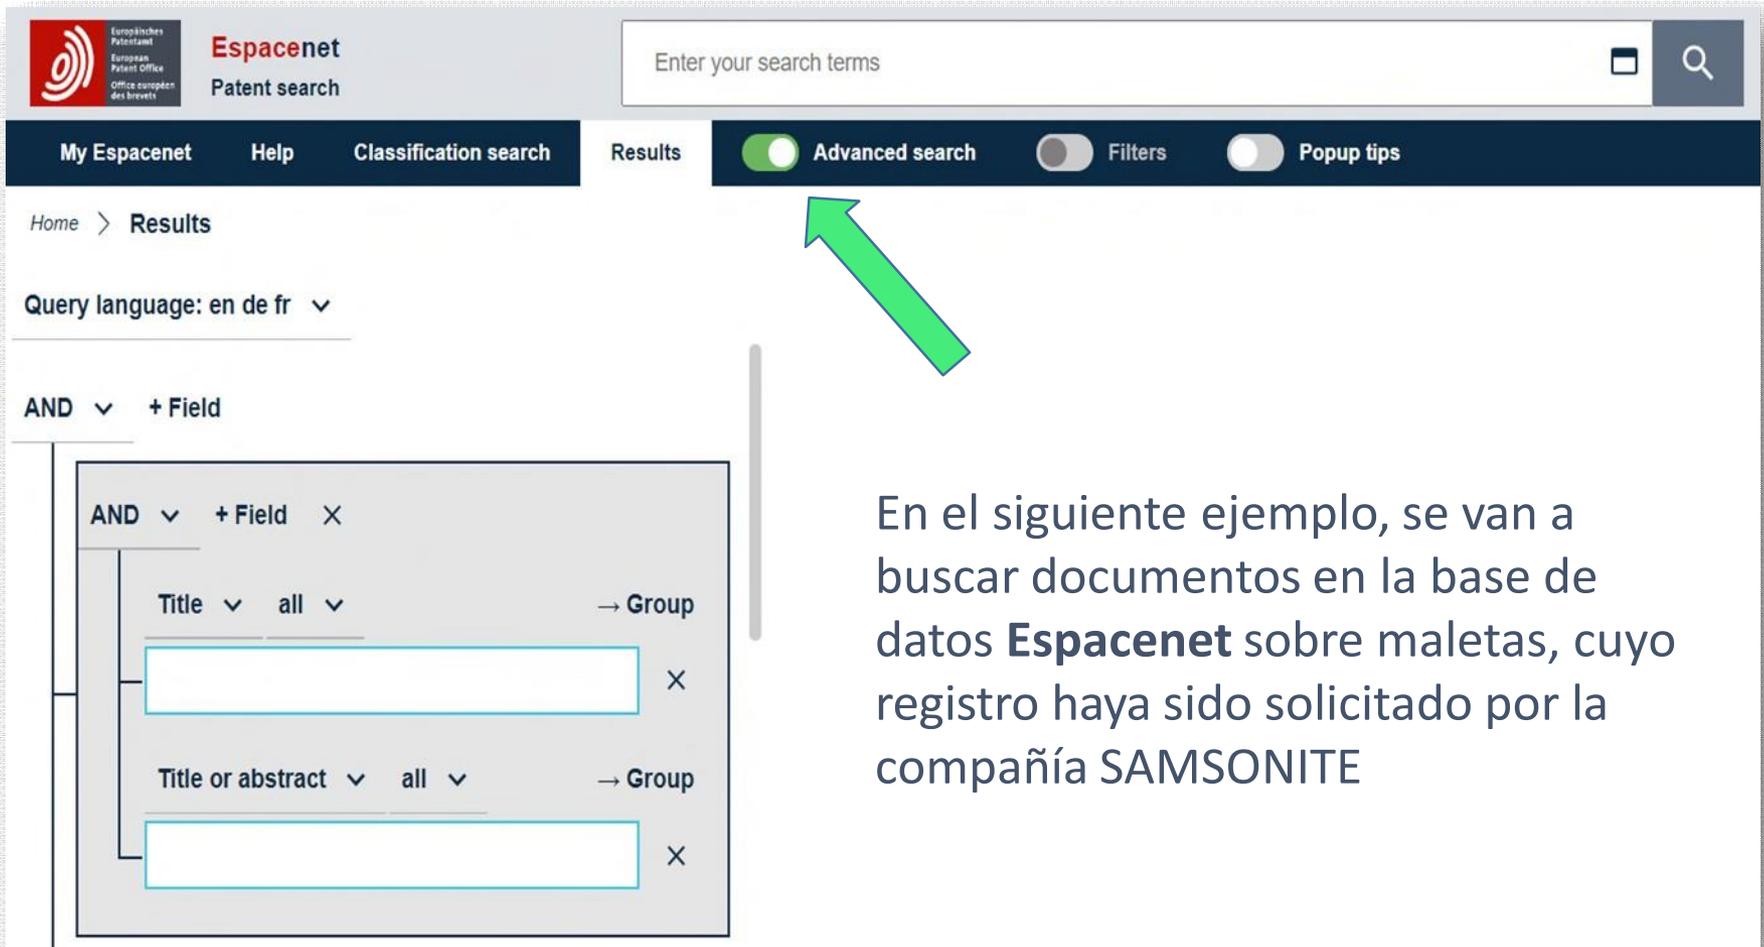

Espacenet: invenciones a nivel mundial

Ejemplo de búsqueda internacional de invenciones

Elija la opción **Advanced Search**, y deberá ver la siguiente pantalla:

The screenshot displays the Espacenet Patent search interface. At the top left is the Espacenet logo and the text "Espacenet Patent search". To the right is a search bar with the placeholder text "Enter your search terms". Below the search bar is a navigation menu with options: "My Espacenet", "Help", "Classification search", "Results", "Advanced search", "Filters", and "Popup tips". The "Advanced search" option is highlighted with a green arrow. Below the navigation menu, the page shows "Home > Results" and "Query language: en de fr". The main search area is titled "AND + Field" and contains two search groups. The first group is titled "Title all" and has a search input field. The second group is titled "Title or abstract all" and also has a search input field. A vertical scrollbar is visible on the right side of the search area.

En el siguiente ejemplo, se van a buscar documentos en la base de datos **Espacenet** sobre maletas, cuyo registro haya sido solicitado por la compañía **SAMSONITE**

# Elija la opción **Advanced Search**, y deberá ver la siguiente pantalla:

Home > Results

Query language: en de fr

AND + Field

Title all → Group

CASE\* OR LUGGAGE\* ×

Applicants all → Group

SAMSONITE ×

Search Reset

Siguiendo el ejemplo, buscaríamos: CASE\* OR LUGGAGE\* en el campo **Title** (título) y SAMSONITE en el campo **Applicants** (solicitantes)

A la izquierda aparece un formulario de búsqueda con **desplegables**  (**FIELD**) para buscar en diversos **campos** (*Title, abstract, Publication number, Applicant, etc.*).

En la barra superior tiene acceso a ayuda (**HELP**).

Es importante que a la hora de seleccionar las palabras clave de nuestra búsqueda tengamos en cuenta los diferentes sinónimos para un mismo término o concepto. Así, si estamos buscando maletas (**CASES, SUITCASES**), también deberíamos buscar equipaje (**LUGGAGE, BAGGAGE**).

# Operadores usados en la búsqueda: \*, AND, OR

The screenshot shows a search interface with a dark blue header. On the left, there are navigation links: "My Espacenet", "Help", and "Classification search". In the center, it says "Results". On the right, there are three toggle switches: "Advanced search" (checked), "Filters" (unchecked), and "Popup tips" (unchecked). Below the header, there is a breadcrumb "Home > Results" and a language selector "Query language: en de fr". The main search area has a dropdown menu set to "AND" (circled in red) and a "+ Field" button. Below this, there are two search groups. The first group is "Title" with a dropdown set to "all". The search input field contains "CASE\* OR LUGGAGE\*" (the "OR" is circled in green). The second group is "Applicants" with a dropdown set to "all". The search input field contains "SAMSONITE". At the bottom left, there is a "Search" button (with a green arrow pointing to it) and a "Reset" button.

Para comenzar la búsqueda pulse **Search**

Esta búsqueda recupera aquellos documentos de invenciones que cumplen dos condiciones (**operador AND**):

- primero, que su **título** incluya la palabra *CASE* o (**operador OR**) la palabra *LUGGAGE* (dos palabras en inglés que corresponden a *MALETA* y *EQUIPAJE* en español) y,
- segundo, que hayan sido solicitadas (**applicant**) por la empresa *SAMSONITE*.

Por otra parte, el **operador \*** representa una cadena de caracteres de cualquier longitud. *CASE\** y *LUGGAGE\** recupera todas las palabras que comiencen por la raíz *CASE* o *LUGGAGE*, tales como: *CASE*, *CASES*, *LUGGAGE*, *LUGGAGES*.

# Listado de documentos

Obtenemos una pantalla que nos indica el número de documentos (**results found**) que cumplen las especificaciones de nuestra búsqueda, el listado de documentos y para cada uno de ellos algunos **datos bibliográficos** como título, número de publicación o solicitante.

Además, aparecen resaltadas las palabras usadas en la búsqueda.

The screenshot shows a search interface with a dark blue header containing navigation links: My Espacenet, Help, Classification search, Results, Advanced search (checked), Filters, and Popup tips. Below the header, the breadcrumb 'Home > Results' is visible. The 'Query language' is set to 'en de fr'. The search criteria are defined by two groups: 'Title' with the query 'CASE\* or LUGGAGE\*' and 'Applicants' with the query 'SAMSONITE'. A 'Search' button and a 'Reset' button are located below the search criteria. The results section shows '196 results found' and options for 'List view' (Text only), 'List content' (All), and 'Sort by' (Relevance). Three results are listed, each with a checkbox, a title, publication details, and a brief description. The terms 'LUGGAGE CASE' and 'SAMSONITE' are highlighted in orange in the original image.

The screenshot shows a patent document interface. At the top left, a navigation bar contains a star icon, the patent number 'GB2319765A', and the title 'Luggage case'. To the right of this are dropdown menus for 'Available in' and 'Patent Translate', and a three-dot menu icon. Below the title bar is a horizontal menu with tabs: 'Bibliographic data', 'Description', 'Claims', 'Drawings', 'Original document', 'Citations', 'Legal events', and 'Patent family'. The 'Bibliographic data' tab is selected. On the left side, there are two 'Group' buttons with expand/collapse icons. The main content area is a table with the following data:

IPC	A45C13/02; A45C13/26; A45C5/14; E05B65/52; E05C19/14; A45C5/00; (IPC1-7): A45C13/26;
CPC	A45C13/02 (EP); A45C13/262 (EP); A45C5/14 (EP); E05B65/5276 (EP); E05C19/14 (EP); A45C5/00 (EP);
Priorities	GB9414354A-1994-07-15; GB9605408A-1995-07-14; GB9804421A-1995-07-14
Application	GB9804421A-1995-07-14
Publication	GB2319765A-1998-06-03
Published as	GB2319765A, GB2319765B; GB2319766A; GB2319766B

Below the table, there is a language selector 'EN' and the title 'Luggage case'. Underneath is the 'Abstract' section, which contains the following text: 'A luggage case comprises a lid shell and a base shell connected together by hinge. A carrying handle (21) is fixed to the case so as not to pivot. It is made of thermoplastic rubber so as to allow torsional twisting movement for the comfort of the traveller.'

On the right side of the interface, there is a navigation bar with a refresh icon, left and right arrow icons, and the text 'Front-page drawing from GB2319765A'. Below this is a thumbnail image of a technical drawing labeled 'FIG. 18'.
